PRODUCT DETAIL:

EcoBlend Organic Indoor Pest Repellent is a highly effective pest repellent based on a patent pending formula. This botanically based formula provides area protection on countertops, carpets and other surfaces for up to one month per treatment.

DIRECTIONS FOR USE:

For indoor use only. Spray product on countertops and wipe up immediately with a dry clean cloth. To apply on fabrics or other non porous surfaces, allow product to remain on surface. For hard flooring, caution is needed due to slickness.

ACTIVE INGREDIENTS:

Soybean Oil (20%), Citric Acid (4%), Cedar Oil (1%). Inert Ingredients (75% Total): Purified Water, Coconut Oil, Castor Oil, & Sodium Benzoate.

ECOBLEND, LLC 2009
