- NON TOXIC
- CHILD & PET SAFE
- BIODEGRADABLE
- WON'T KILL PLANTS, SAFE FOR VEGETABLES
- COMPLIANT WITH THE NATIONAL ORGANICS PROGRAM FOR USE IN ORGANIC PRODUCTION
- CONCENTRATE

PRODUCT DETAIL:

EcoBlend's Organic Insecticidal Soap for Crops, Lawn, and Garden is a natural alternative to chemical based insecticidal soaps. It quickly kills most soft bodied agricultural insects without harming your crops, lawn or garden.

DIRECTIONS FOR USE:

For external use only. Mix one part concentrate with one part water for best results. For larger areas add one part concentrate to two parts water. Concentrate can be diluted to ten parts water to one part concentrate. Using any standard hand-held or backpack sprayer apply directly to lawn, crops, and all garden plants you want protected from insects.

ACTIVE INGREDIENTS:

Sodium Lauryl Sulfate (8%), Inert Ingredients: Purified Water, Potassium Oleate, Lauric Acid, Glycerin, Glyceryl Monostearate.
