- SAFE FOR USE AROUND CHILDREN & PETS
- BIODEGRADABLE
- KILLS POISON IVY, WEEDS & GRASS ON CONTACT
- COMPLIANT WITH THE NATIONAL ORGANICS PROGRAM FOR USE IN ORGANIC PRODUCTION

PRODUCT DETAIL:

Heavy duty, natural herbicide for use on ground and vegetation to destroy unwanted weeds, vegetation and poisonous plants like poison ivy. It is a natural alternative to chemical based herbicides that is safe for use around humans and animals. It is a quick kill, highly effective, and patented formula made from the fatty acids of plant oils. EcoBlend weed killer breaks down the plant mass which will turn into beneficial ground nutrients.

DIRECTIONS FOR USE:

For external use only. Completely cover the unwanted weeds with the herbicide soap. Do not spray areas not intended to be dissolved. Won't harm clothing, wood or most plastics. If one spray application doesn't kill the entire plant spray weekly or until the plant is dead.

APPLICATION RECOMMENDATIONS:

Mix EcoBlend herbicide soap half with water. A handheld or backpack sprayer is ideal for achieving thorough coverage of weeds. Sprayed plants will start to show damage within a day.

ACTIVE INGREDIENTS:

Soybean Oil (20%), Lauric Acid (2.2%) Polyethaline glycol (3.5%), Polysorbate 20 (1.1%), Inert Ingredients (71.3% Total); Purified Water, Coconut Oil, & Benzoic Acid.
